OBJECTIVE

Motivated and accomplished Machine Learning Researcher with a strong desire for challenges, I am actively seeking an engaging position as an ML/AI Engineer. I aim to leverage my extensive research expertise in Deep Learning and Computer Vision to advance the application of cutting-edge research and contribute to the dynamic and innovative endeavors of an organization.

EDUCATION

Monash University, Australia

Ph.D. in Electrical and Computer System Engineering

Mar. 2020 - Sept. 2023

Teaching Experience : Neural Networks and Deep Learning

Focus : Continual Learning, Knowledge Distillation, Federated Learning, Contrastive Learning, Kernel Method

Thesis : Lifelong Learning with Deep Neural Network

Kyung Hee University, South Korea

M.Sc in Computer Science and Engineering

CGPA: 4.013/4.30

Sept. 2015 - Aug. 2017

Thesis : Background Modeling Technique for Segmentation Problem

Institute of Information Technology, University of Dhaka, Bangladesh

Bachelor of Information Technology (Major: Software Engineering)

CGPA: 3.66/4.00

Feb. 2009 - Dec. 2012

SDLC, Software Development, Internship: OpenBravo POS Feature Development

PROFESSIONAL EXPERIENCE

Research Fellow @ CSIRO, Australia

Jan. 2024 - Cont.

- Machine Learning for Robotics

Computer Vision Engineer (R&D) @ MOPIC Co., Ltd., South Korea

Nov. 2017 - Feb. 2020

- Developed 3D media player for Windows platform. Employed wxWidgets and GStreamer for GUI development and video decoding respectively and rendered using OpenGL. Integrated 3D eye tracking technique for depth sensing from Intel RealSense SDK.
- Employed Encoder-Decoder architecture with skip-connection to estimate depth from single image and developed Android application for 3D reconstructed image demonstration. Studied U-net, LinkNet, and their variants.
- Prepared dataset, analyzed, augmented and trained Object (9 cards) Detection model (Single Shot Multibox Detector with MobileNet) using TensorFlow Object Detection API.
- Gained knowledge on several well-known deep learning architectures, for instances AlexNet, VGG, Inception, Mobilenet-V1, Mobilenet-V2, ResNet using Tensorflow (Keras high level API), to solve (single/multi-label) classification problem. Learned about integration of handcrafted feature (Kirsch/Sobel) with convolution layer and building custom architecture having multiple output.

Software Engineer @ Samsung R&D Institute Bangladesh (SRBD)

Mar. 2013 - Aug. 2015

- Developed new feature (Camera API, Drag & Drop, and Network API) for Samsung Smart TV SDK Emulator with C++. Contributed to Samsung TV App to Tizen App Conversion tool development.
- Developed and Enhanced Features (Detail View, Film Rating, Film creation, Report and Help module) for Android and IOS application for Samsung NX1, NX500 or NXmini2 camera.

Kaushik Roy (<https://bit0123.github.io>)

- Contributed to an in-house research project entitled "Decision making through multiple object tracking and Collision Detection" by developing an object detector using Haar Cascades.

TECHNICAL SKILLS

Programming Language	Python, C++, Java, PHP
Deep Learning & Computer Vision Libraries	PyTorch, OpenCV, TensorFlow, Keras
Operating System	Linux, Windows, Mac OS

- **Kaushik Roy**, Jaemyun Kim, Md Tauhid Bin Iqbal, Farkhod Makhmudkhujaev, Byungyong Ryu, Oksam Chae "*An Adaptive Fusion Scheme of Color and Edge Features for Background Subtraction*" in IEEE International Conference on Advanced Video and Signal based Surveillance (AVSS 2017).
- Jaemyun Kim, Adin Ramirez Rivera, Byeongwoo Kim, **Kaushik Roy**, Oksam Chae "*Background Modeling using Adaptive Properties of Hybrid Features*" in IEEE International Conference on Advanced Video and Signal based Surveillance (AVSS 2017).

AWARDS & ACHIEVEMENTS

- Monash Graduate Scholarships (MGS) and Monash International Tuition Scholarships (MITS) for my PhD studies.
- CSIRO Postgraduate Research Scholarship.
- President Scholarship for my Master's study in Kyung Hee University, South Korea.
- Board scholarship in Higher Secondary Education for outstanding result in Secondary Education.
- 1st student of my school to get A+ in Secondary board examination.
- About 1600 Reputation and around 250K people reached my solutions in stackoverflow.
